Re: Nkosinathi Tomose Letter of Rerence

To Whom It May Concern,

This letter serves to confirm that Nkosinathi Tomose worked as the Collections Manager for the Archaeology Department, Wits University between 2009 and early 2010. He was responsible for the following:

1. The development of collection inventory
2. Implementation of Vernon Collection Management Systems
3. Development of Wits Archaeology collection management protocol
4. Loaning and creating access to Wits Archaeology collection for educational and research purposes

Nkosinathi will add value in advising on best practices for collection management at Freedom Park.

Nkosinathi did his Master of Science Degree on the Operational Models under which Cultural Heritage Institutions Operate in South Africa. He would be the ideal person to work on the development of the Site Management Plan for Freedom Park, which is similar to institutions such as the Cradle of Humankind, Origins Centre and the Apartheid Museum that he assessed in his studies.

Please do not hesitate to contact me for any further queries.

With all best wishes, I remain

Yours sincerely,

A handwritten signature in blue ink, appearing to read 'K. Sadr'.

Professor Karim Sadr
