

ANNEXURE D3 -IDENTIFIED I&APS

BACKGROUND

In undertaking the Phase 3 Public Participation Process (PPP) NGT Holdings (Pty) Ltd (hereafter referred to as NGT) conducted a desktop study on environmental groups and of the landowners in the study area as well as using information provided by the client to identified multiple Interested and Affected Parties (I&APs). From this exercise, NGT was able to develop a database of identified I&APs, which were subsequently notified of the project and invited to register as I&APs on the project. Five different groups of I&APs were identified namely; Authorities (*table 1*), directly affected Landowners (*Table 2*), Right Holders (*Table 3*), Ward Councilor (*Table 4*) and Environmental Groups (*Table 5*). NGT further sent out initial project documentation i.e. project Notification Letter, Background Information Document (BID), the site notice and stakeholder registration form.
